Nomination procedure (H & L-gas structures) 1/2

- OGE and suppliers exchange contact data sheets.
- OGE notifies the supplier of the natural gas quantities from the structured contracts that OGE wishes to take over at the virtual trading point.
- Quantities are nominated in kWh in the form of a daily band, i.e. the quantities are nominated for the delivery day as twenty-four (24) equal hourly quantities (with summer/winter time changeover corresponding to 23 or 25 hourly quantities)

Content of the nomination procedure:

The nomination contains at least the following information:

- the contract number of the natural gas supply contract,
- the code of the THE balancing group contract,
- the VHP as a transfer point,
- the validity period,
- the hourly amount in kWh.

Nomination procedure (H & L gas structures) 2/2

Daily nomination procedure

The daily nomination is binding for the following day by 2:00 p.m.

- If the supplier has not received a daily nomination for the following day from OGE by 2:00 p.m. of the current day, the nomination of the previous day shall be deemed to be the notified quantity.

Confirmation by the supplier

- The confirmation of the daily nomination is made by the nomination of the supplier at the virtual trading point.

Data provision

- The transmission and exchange of the business data, information or documents required for the settlement is carried out via the EDIG@S protocol.

Treatment of exceptional operating situations (performance obstacles)

- If the supplier cannot fulfill his obligations or can only fulfill them to a limited extent, he must provide information by telephone (and confirmed in writing) about the expected scope, duration and cause.

Prequalification / proof of credit rating

To prove financial eligibility, the applicant must have a good credit rating.

Evidence is provided if a rating from one of the following credit reports is available with at least the following index for the applicant:

- Moody's (Baa3)
- Standards & Poors (BBB-)
- Fitch (BBB-)
- Creditreform risk class I-II
